

<RUSH HOUR SERVER>

Developed by:

Yohan Yoon

GAME LOOP (CHALLENGE -> LEARN -> REWARD)

- **Challenge**
 - Players need to satisfy customer's requests in the restaurant.
- **Learn**
 - Players learn to serve drinks, food, and cash their bill out.
- **Reward**
 - Players will receive tips from customers by how their customer service was.

GAME OVERVIEW

GENRE

- Tycoon
- Simulation
- Point and Click

CORE GAMEPLAY MECHANICS

- Players will be playing games as a only server in the burger restaurant. Players will move and interact with customers, food, or cash register with point and click. Players can only move within a certain area which is just front side of restaurant. He/she can't go into kitchen or outside.
- When customers come in, they will sit them by themselves in random seats. As soon as they sit, timer will start. If players don't take their orders within certain time, customers will leave the restaurant. For ordering, serving, and checking out, it will be the same mechanic.
- After the restaurant closes, server will be able to count the tips they received. They can purchase items such as speed up with the tips they earned.

CUSTOMER STATE

Enter >> Seat >> Wait Order >> Order Taken >> Cooking >> Eating >> Check Out >> Exit
