

3/13/2026

I added some tables and seats for the restaurant.

Also, I changed the interior of it.

3/20/2026

I created a pizza item base.

- Create a blueprint child of BP_ItemBase
- Move to project folder
- Change the static mesh of BP_ItemBase_Pizza, name the item 'Pizza'
- In Item DataTable, Add new row
- Change the name of the item and icon!
